CREATIVE CHALLENGE CELEBRATION SCHOOL

Vivianne Miedema scores goals all the time. She is usually cool and relaxed when she scores; she never over-celebrates. Imagine she wants to try out some new celebrations for when she scores, and remember she sometimes scores six goals in one game!

Your challenge is to come up with **six celebrations**. They could be famous celebrations or new ones you have created. **Draw** a diagram and **write** a description of your celebrations below. If you **don't have a printer** you can draw and write on plain paper or on our **Plain Template**.

PRO TIPS

DESCRIPTION – Describe how to do the celebration by giving instructions.

DIAGRAM – Draw a picture of someone doing the celebration. You could label the picture to make important points clear.

ORIGINAL – Try to make your celebrations a mix of famous celebrations and new, original celebrations you have made up!
